## Profile

---

An experienced and dedicated data analyst with several years of experience identifying efficient and problem areas within data streams while communicating needs for projects. And an full stack web developer seeking to elevate my skills and knowledge to the next level.

## Core Skills

---

- Team Player
- Experienced in Leadership
- Decision Making
- Interpersonal Communication Skills
- Hard Working
- Creative Problem Solving

## Work experience

---

### Lebanese Army

10/2017 — Present

#### Data Analyst

- Adjutant at the Lebanese Army.
- Perform exploratory data analysis and discover notable relationships.
- Analyze data sets and help companies make decisions based on findings.

### CIS Innovation Hub

summer 2023

#### Full Stack web developer internship

- Played an integral role in crafting interactive websites that captivated users with dynamic elements and real-time interactions, with one noteworthy project being the CIS Innovation Hub website.
- Acquired proficient, hands-on expertise in seamlessly integrating JSON APIs during my full-stack web developer internship. Skillfully integrated JSON APIs into diverse web applications, facilitating smooth data interchange between front-end and back-end functionalities.

### CIS Innovation Hub

summer 2023

#### Computer Instructor for Special Needs Children

- As a computer teacher for children with special needs at a summer camp, I designed an inclusive and adaptive curriculum that catered to the diverse abilities and learning styles of each child.
- Recognizing the importance of individual attention, and providing personalized guidance and encouragement to each student throughout the camp.
